

# ELEVATION DIAGNOSTICS

## CONCIERGE COVID-19 TESTING SERVICE

Elevation Diagnostics is a CLIA certified, clinical molecular diagnostics laboratory located in Broomfield, CO. We are authorized to offer the FDA EUA Yale School of Medicine SalivaDirect™ SARS-CoV-2 detection test. SalivaDirect™ is a 97% accurate RT-PCR test, meeting the standard for most international travel testing.

### Our testing service features:

FDA EUA approved RT-PCR COVID-19 test

Self-administered saliva samples during a virtual appointment

Online registration and reporting of results

Same day turnaround time from receipt at the lab, Monday through Friday

### Our process is simple.

1. Purchase a kit through our web portal using the attached QR Code or at [elevationdiagnostics.com/product/purchase](https://elevationdiagnostics.com/product/purchase) and schedule your personal virtual collection appointment for the time that works best for you. This appointment will be for individual instruction and for our team to witness collection.
2. Bring your receipt to the front desk to receive a kit. Follow the included directions to register your kit and be sure to set aside time for your virtual appointment!
3. After your video appointment, simply bring your sealed kit to the front desk and we'll take care of the rest!

#### “How much does the test cost?”

Our COVID-19 test includes flexible scheduling and testing from the comfort of your hotel room for only \$100.

#### “What will my results tell me?”

Our test is designed to determine whether you are currently infected with the SARS-Cov-2 virus. A positive result signifies a detected presence of the virus.

#### “What if I test positive for COVID-19?”

You should limit your exposure to other people and monitor your symptoms. Consult your healthcare provider for further instructions and follow local guidelines.
